# Introduction

Welcome to the October newsletter.

Since the previous edition BHSEA welcomed 136 Delegates to the Mock Trial Event at Artrix in Bromsgrove. A big thanks to all the helpers on the day especially Louise Mansfield and Andy Lucas who volunteered their time to run this great event.

The October Monday Event saw our biggest attendance of the year. The 70 attendees listened to presentations on the Building Safety Regulations and CDM from Jason Whittall, and Peter Bowers, and participated in a lively Q&A session hosted by Louise Mansfield and Roger Smith. The feedback has again been amazing.

Wayne Bishop  
BHSEA Chair

# HSE Updates

## Grenfell Tower Inquiry: phase 2 report

The publication of the final report in early September was an important milestone

[Read the Grenfell Tower Inquiry phase 2 report](#)

Statutory guidance for building regulation in England has been recently updated and published

The guidance covers fire safety matters within and around buildings. Updates to Approved Document B include provisions for sprinklers in all new care homes, irrespective of height.

## MSD Risk-reduction through design awards

The HSE are looking to award businesses that have made simple changes to their workplace, tasks or activities that have resulted in reduced musculoskeletal risk to their employees. These changes could include reducing lifting, pushing or pulling activities, reducing awkward postures while using equipment or removing the need for manual handling altogether. If you are an employer in the UK, and you have made design changes that have reduced musculoskeletal risks in your workplace, then nominate yourselves for the awards.

Further details on how to enter and case studies of previous winners are [available on our website](#).
